

Create your own Water Hero!

Water Heroes use water carefully and tap water is their drink of choice.

You'll need:

- » Cardboard tube, like a toilet roll or something similar for the body
- » Scissors and glue/tape (make sure you ask an adult for help)
- » Markers, scrap paper and other odds and ends to personalise your Water Hero

What to do:

1. With help from an adult, cut out the cape and attach to tube
2. Add a face and features
3. Take your Water Hero on a tour of your home and think of ways to use water carefully. How can you use less water in the bath, shower or when brushing your teeth?

We would love to see your Water Hero!

Email a photo to communications@coliban.com.au and we will send you a child-sized cape.
